

Decisely Client Success Story

Rosslyn Auto Body

Industry: Auto | Location: Virginia | Employees Covered: 23

Challenges

As a family-owned business with nearly 100 years of experience, Rosslyn Auto Body delivers the best care possible to their customers. Owner Kris Burton wanted to extend that same dedication to his employees by providing access to meaningful benefits.

At first, the company tried to manage health insurance independently. But with rising costs and low participation, Kris turned to the [SCRS Benefits Center](#) — where he discovered Decisely.

Solutions

Kris partnered with Decisely to bring his team a comprehensive benefits package — from health insurance to dental, vision, life, disability, mental health, and more.

When it came to implementation, he shared, “It’s been really easy for us. After you get it all set up, it’s pretty much automated. There isn’t a whole lot of managing the process you need to do — go through the flow, and it’s paperless.

Works for us.”

Why It Matters

For Rosslyn Auto Body, it all comes down to taking care of their people. From technicians with 20+ years at the shop to younger employees, access to quality care keeps the team healthy, motivated, and committed for the road ahead: “It’s been a positive thing. **The small stuff is what really matters.**

It means a lot to them.”

Results

Quality Coverage

Affordable, continuing care with regular checkups, dental cleanings, and expanded benefits the shop had never been able to offer before

Retention & Morale

Increased employee satisfaction and loyalty, “It helps their longevity, motivation, and participation in the company in the future”

Seamless Experience

Direct, end-to-end support from benefits experts

“I would say do it without a doubt. There’s no reason not to. It’s better coverage. An easier plan. **Overall, the plan gets better as we get more members into it.”**

— Kris Burton, Owner, Rosslyn Auto Body
